Petition to Stop the Vista Ridge Water Project and Make Growth Pay for Itself

To Governor Greg Abbott, Lt. Governor Dan Patrick, Texas House Speaker Joe Straus, Comptroller Glenn Hegar, San Antonio Mayor Ivey Taylor and the San Antonio City Council:

We, the undersigned voters, urge you to use the power of your office to protect the future of the great State of Texas.

Stop the San Antonio's Vista Ridge water project and all other efforts by the Texas real estate lobby and its political allies to employ the "California water model" in Texas. Mass movement of water to facilitate development in areas without their own water supply is a proven disaster.

We further urge you to discontinue the use of public funds and subsidies to lure people to Texas, and to deny developers and special interests the right to offload the costs of population growth (schools, roads, water, power etc.) onto the backs of current taxpayers and ratepayers."
