

There's only one way to stop Gridzilla creeping up on us in the 2017 Legislative Session:

Urban and rural Texans must unite to:

- ▶ Win Competitive elections to free the 5 million independent Texas voters!
- ▶ Protect our petition rights in all home rule cities!
- ▶ Stop the rural water grabs for hyper-development in urban Texas!
- ▶ End eminent domain for private gain!

While Lt. Governor Dan Patrick has everyone fighting about bathrooms, a heist of historic proportions is planned for the 2017 session. It has major buy-in from Republican and Democratic legislators at the behest of the almighty growth/real estate lobby:

Moving masses of groundwater to dry areas – the California water model -- is already a proven disaster.

Save the dates and make a reservation!
