

Petition to the San Antonio City Council
**For an Independent, Legal and Financial Review of Vista Ridge
and Ending the Pay to Play Culture at City Hall**

As a resident of San Antonio, SAWS ratepayer and registered voter, I sign this petition to the San Antonio City Council urging these two immediate and urgent actions by the Council:

1. Conduct an independent managerial, legal and financial review of the \$3.4B Vista Ridge water pipeline because I want to know how this project impacts on my water rates and the water future for people who in Bureson County who depend on this water too, and
2. To end the overriding influence of special interests which put real estate development over the needs of the people who currently live here, by requiring full, timely and enforceable disclosure of all contributions to candidates and ballot measures and giving the City Ethics Commission the power to enforce the rules.

This petition can be signed online, but please do not sign more than one petition.
