

# YOU ARE NOT ALONE IN CONCERNS ABOUT VISTA RIDGE

- ▶ A coalition of rural and urban organizations have asked the San Antonio City Council to adopt the **Vista Ridge Resolution** and launch an independent audit of Vista Ridge – the \$3.4 billion, 142-mile water pipeline slated for operation in April 2020.
- ▶ Vista Ridge is more water than San Antonio can use and is the most expensive water in Texas. For the benefit of private companies, it's being forced on San Antonio ratepayers, who live in a city with the highest poverty rate in the U.S.

## Vista Ridge-- wrong for Texas.

Vista Ridge is a monstrous project, but the biggest beast is the force behind it: the push for "growth" at any cost. Rural and urban Texans are catching the drift -- ever rising taxes and fees, concentrated poverty, and potential harm to critically important water resources.

**Call your County Judge, State Representative, State Senator and Governor Abbott (512.463.2000), to urge their support for a full independent audit of Vista Ridge and proper oversight of San Antonio Water System (SAWS).**

### **LEAGUE OF *independent* VOTERS OF TEXAS (LIV)**

PO Box 651, Bastrop, TX 78602 • 512.213.4511 • *Lots more at: [LIVTexas.org/vista-ridge](http://LIVTexas.org/vista-ridge)*  
*Invite us to speak to your church or local organization or simply share this flier.*
